DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-21, drawn to a method to prepare a microsphere.

Group II, claim(s) 22, drawn to a method to prepare a lyophilized microsphere.

Group III, claim(s) 23, drawn to a product, lyophilized microsphere.

Group IV, claim(s) 24-31, drawn to an apparatus for the preparation of a microsphere.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 1 is either obvious over or anticipated by the combination of EP 1277787A (full text), WO 99/25319A1 (full text, fig. 1, 4-6), and US 6,194,006 B1 (full text, fig 3), as in the International Search Report and International Preliminary Examination Report. Accordingly, the special technical feature linking the four inventions, a microsphere, does not provide a contribution over the prior art, and no single general inventive concept exists. Therefore restriction is appropriate.

3. A telephone call was made to Ernest Chapman on December 19, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1711

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement can be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Applicant should note that claims 30 and 31 are in improper form because a multiple dependent claim should refer to other claims in the alternative only. See MPEP § 608.01(n).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Saira Raza whose telephone number is (571) 272-3553. The examiner can normally be reached on Monday-Friday from 9am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on (571) 272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
